AI tools

You can now brief Google's ad AI *in German*

AI Brief expands to 7 more languages

brief it *auf Deutsch*

01 • What changed

AI Brief goes multilingual

On 23 September, Google expanded the closed beta of AI Brief for AI Max to Dutch, French, German, Italian, Japanese, Portuguese and Spanish.

02 • What AI Brief is

A written brief for the machine

You guide AI Max **in your own words**, with context on your business, your audience and your key messages. Your strategy now lives in the brief.

03 · New report

One view of the whole journey

Search term, then the creative the person saw, then the page they landed on. All in one place. Google hasn't given a general availability date yet.

Weak brief vs strong brief

WEAK

- ◆ We sell great shoes
- ◆ Everyone is our audience
- ◆ No limits given

STRONG

- ◆ Trail shoes for wide feet
- ◆ Hikers aged 30 to 55
- ◆ No discount claims

My brief checklist

01 Write in your customers' language

02 Top 3 messages, in order

03 What you never want said

04 Real proof points only

04 • The catch

Still a closed beta

Not every account will see AI Brief yet. Treat it as a test: keep a control period and compare results before and after.
