AI WRITING · THE 4-STEP FIX

Everyone can tell you used *AI*.

~~unlock~~ ~~elevate~~ ~~seamless~~

~~game-changer~~ ~~delve~~ ~~journey~~

Here's how to make it write like **you** instead.

SWIPE →

WHY IT SOUNDS LIKE AI

It has no picture of *your* voice.

AI DEFAULT

"In today's fast-paced world, unlock the power of content."

THE FIX

A voice card, a ban list, and a draft that grades itself.

STEP 01 · VOICE CARD

Feed it five good *examples.*

01

paste 5 things you wrote

```
Here are 5 things I wrote that sound like me: [paste].
Build a voice card with:
- 5 traits, each with a "I'd say / I'd never say" example
- sentence length and rhythm
- words I use often, words I never use
- how I open and how I close
```

Save the result. That's your voice file.

STEP 02 · BAN LIST

Write down what makes you *wince.*

02

~~unlock~~ ~~elevate~~ ~~seamless~~

~~game-changer~~ ~~dive in~~ ~~delve~~ ~~journey~~

~~landscape~~

Add your own. Paste the list under the voice card every time.

STEP 03 · SELF-GRADING

Make it mark its own *work.*

03

same chat

```
Using this voice card: [card]
Write [the piece].
Then grade your draft against each trait from 1-5,
quote the weakest line, and rewrite it.
```

It finds its own weakest line faster than you will.

STEP 04 · THE ONE AI CAN'T DO

Read it out *loud.*

04

If you wouldn't say it to a person, cut it.

Want both *prompts?*

COMMENT

HUMAN

and I'll DM you the free guide:

- ✓ the voice card prompt
- ✓ the ban list to start from
- ✓ the self-grading prompt
