THE EXAMPLE CAMPAIGN

One budget, ten *creators.*

BUDGET	CREATORS
€20,000	10
REACH PER POST	**ENGAGEMENT RATE**
60,000	4%

Illustrative numbers. Real ones depend on platform, market and tier.

NUMBER 01 · TOTAL REACH

Total *reach.*

01

creators × reach per post = 10 × 60,000

600,000

How many people might see it.

REACH	ENGAGEMENTS	CPM	PER ENGAGEMENT
600,000	?	?	?

NUMBER 02 · ENGAGEMENTS

Engagements.

02

reach × engagement rate = 600,000 × 4%

24,000

Likes, comments, saves and shares. Whether people cared.

REACH	ENGAGEMENTS	CPM	PER ENGAGEMENT
600,000	24,000	?	?

NUMBER 03 · CPM

CPM.

03

budget ÷ reach × 1,000 = €20,000 ÷ 600,000 × 1,000

€33.33

What it costs to reach 1,000 people.

REACH	ENGAGEMENTS	CPM	PER ENGAGEMENT
600,000	24,000	€33.33	?

NUMBER 04 · COST PER ENGAGEMENT

Cost per *engagement.* 04

budget ÷ engagements = €20,000 ÷ 24,000

€0.83

What each like, comment, save or share cost.

REACH	ENGAGEMENTS	CPM	PER ENGAGEMENT
600,000	24,000	€33.33	€0.83

SO, IS €33 CPM GOOD?

Compare it with *paid social.*

Look up what the brand pays for ads in the same market.

Creator content often costs **more per view**, but earns **more trust**, and the brand can reuse it in ads.

That's the argument you take into the meeting.
