

FREE · OPEN SOURCE · TESTED THIS WEEK

7 free Claude Skills I installed *this week*.

Design taste, motion video and viral hooks. Each one is a folder Claude reads before it works.

📁	Taste Skill	01
📁	HyperFrames	02
📁	GSAP skills	03
📁	LinkedIn Skills	04
📁	Web Design Guidelines	05
📁	Social Media Skills	06
📁	Motion Design	07

Comment **SKILLS** for the list

Swipe →

QUICK CONTEXT

A skill is a folder Claude reads *before* it works.

```
... .claude/skills/your-skill/SKILL.md

---
name: your-skill
description: When to use it, in one line.
---

The instructions, examples and rules
Claude follows when the task matches.
```

Install once. Every chat that needs it gets better. No prompt pasting.

TASTE SKILL

Stops the *generic* AI look.

01

Anti-slop design rules for pages and UI. Claude reads your brief, picks a real direction, then checks layout, type and spacing before it ships.

SKILL.md

name: design-taste-frontend

description: Anti-slop frontend skill for landing pages, portfolios, and redesigns. The agent reads the brief, infers the right design direction...

```
$ npx skills add Leonxlnx/taste-skill
```

Source: github.com/Leonxlnx/taste-skill · read 7 Oct 2026

Design · MIT licence · tasteskill.dev

HYPERFRAMES

Turns HTML into *motion video*.

02

Kinetic text, UI walkthroughs, camera moves and roughly 400 ready-made effects. Claude writes the scene, HyperFrames renders the MP4.

SKILL.md

name: hyperframes

description: Mandatory entry point: read this first for any request to make, create, edit, animate, or render a video, animation, or motion graphic...

```
$ npx skills add heygen-com/hyperframes
```

Source: github.com/heygen-com/hyperframes · read 7 Oct 2026

Video · Apache-2.0 · by HeyGen

→

GSAP SKILLS

Teaches Claude *real* animation.

03

The official GreenSock skills: timelines, easing, stagger, plugins. And GSAP is now 100% free, every plugin included.

SKILL.md

name: gsap-timeline**description:** Official GSAP skill for timelines:

gsap.timeline(), position parameter, nesting, playback...

```
$ npx skills add greensock/gsap-skills
```

Source: github.com/greensock/gsap-skills · read 7 Oct 2026

Motion · MIT licence · Official

LINKEDIN SKILLS

20 hook formulas, *built in.*

Post writer with 20 hook formulas, a hook extractor for any viral post, a humanizer that strips AI tells, and a weekly planner.

SKILL.md

name: linkedin-post-writer

description: Draft a new LinkedIn post from scratch using one of 20 2026 hook formulas (anaphora, R.I.P., time-anchor, curiosity-gap, contrarian...)

```
$ npx skills add sergebulaev/linkedin-skills
```

Source: github.com/sergebulaev/linkedin-skills · read 7 Oct 2026

Writing · MIT licence · 12 skills

WEB DESIGN GUIDELINES

A design review *before* you ship.

05

Vercel's skill checks your UI against their interface guidelines: accessibility, layout, typography. Ask: "review my UI".

SKILL.md

name: web-design-guidelines

description: Review UI code for Web Interface Guidelines compliance. Use when asked to "review my UI", "check accessibility", "audit design"...

```
$ npx skills add vercel-labs/agent-skills
```

Source: github.com/vercel-labs/agent-skills · read 7 Oct 2026

Design QA · by Vercel

SOCIAL MEDIA SKILLS

Hooks and trends *on demand.*

06

Six hook variations for any topic, niche research on the last 7 days, and a content matrix of 24 to 40 post ideas.

SKILL.md

name: hook-generator**description:** Generate 6 clickbait-style LinkedIn hook variations for any topic. Two-line hooks built on the formula: a 40-char opening line...

```
$ npx skills add charlie947/social-media-skills
```

Source: github.com/charlie947/social-media-skills · read 7 Oct 2026

Ideas · MIT licence

MOTION DESIGN

Timing like a *motion designer.*

Easing, choreography and Disney's animation principles adapted for UI. Your animations stop feeling robotic.

SKILL.md

name: motion-design

description: Applies motion design principles to create emotionally-driven, technically sound animations and transitions. Provides timing, easing...

```
$ npx skills add LottieFiles/motion-design-skill
```

SKILLS

and I'll send you the install list:
links, commands and the order I'd
add them in.

Save this for your next build day.
Which one would you install first?
