

CREATOR PARTNERSHIPS

5 clauses to check before you **sign** a creator

Most deals go wrong in the contract, not the content.

01 • Usage rights

How long can the brand use the content?

Organic reposting for 30 days is very different from paid ads for 12 months. Name the channels, the duration and the territory. 'In perpetuity' should cost a lot more.

02 • Exclusivity

Which competitors, and for how long?

'No beauty brands for 6 months' can wipe out a creator's income. Narrow it to direct competitors and pay for every month you block.

03 • Payment terms

When does the money actually arrive?

Net 30 after posting is fair. Net 90 after the brand's approval is not. Agree the trigger date and a late-payment rule.

04 • Disclosure

Who is responsible for the ad label?

In Germany that means **Werbung** or **Anzeige** at the start of the caption, not just #ad. Write the exact label into the contract.

05 • Exit

What happens if it goes wrong?

Add a kill fee for cancelled work, a cap on revision rounds, and a fair morality clause that works both ways.

Red flag or fair?

RED FLAG

Usage in perpetuity
Unlimited revisions
Net 90 payment

FAIR

12 months, named
channels
2 revision rounds
Net 30 after posting
